

The diagram illustrates a record layout with six fields. The top row contains the fields: *path*, *metadata*, and *object*. The bottom row contains the fields: *pathsize*, *metadatasize*, and *objectsizes*. Vertical lines separate the fields. Arrows point upwards from the *pathsize* field to the *path* field, from the *metadatasize* field to the *metadata* field, and from the *objectsizes* field to the *object* field.
